Dialup Hours (per hour)	\$1.00	\$1.00	\$1.00	\$0.75	\$0.75	\$0.75

1) The **Intro Dial Up** package (\$3.71 a month) would provide one email account and space for a website attached to the Internet Service Provider (ISP) site. If a department has their own domain address and wants it hosted by Islandnet, the cost would be an additional \$3.71 a month.

2) Going to the **Basic Dial Up** package would increase the webspace available for your website, allow for a greater exchange of data, and allow up to 26 email accounts. The **Advanced** package would expand this further and allow up to 51 email accounts.

3) If you are in an area served by **Shaw High Speed Cable**, you may choose one of the 3 available packages. The primary difference between them is the speed of data transfer. Please note that you must also add one of either the **Intro**, **Basic**, or **Advanced** packages (from **Dial Up**), plus domain hosting if applicable.

This service is available to member departments of the **Vancouver Island Fire-Fighters Association** & their members
